We are excited to add value to our clients, CAREGivers and the community through our new “Home Instead Senior Care Education and Life Enrichment Center”. (E.L.E. Center) It has been our dream for several years to have additional space to be able to offer more education, more activities and more social interaction for our clients and CAREGivers. With the addition of our Family Education & Support Workshops, we realized the need for family education is great and at times, we’re finding ourselves putting family members on a waiting list due to lack of space in our office training room. Our dream has finally become a reality with an additional 1800 sq ft of space dedicated totally to education and life enrichment. Located only two buildings north of our office, this space is very easy to find.

Enriching the lives of aging adults and professional and family caregivers through education, mental engagement and social interaction.

At the E.L.E.(Pronounced Elly) Center, you will find training and educational opportunities and scheduled activities for professional, as well as family caregivers, our clients and the community. It will also be open by appointment for seniors and caregivers to use the internet, pick up some resources for senior solutions or do some brain training, etc.

If you need a large space for a special event or party, the E.L.E.Center is available for rent for a few hours or for the day, based on availability.

With a large training room that seats up to 40 people at training tables (more with chairs only), a personal service skills lab, an activity or small conference room, two restrooms and a hospitality room with a complete kitchen and internet café, the E.L.E.Center has plenty to offer! Visit our webpage at www.homeinstead.com/101/EducationLifeEnrichmentCenter often to look at the calendar and see what exciting events are scheduled.

When a senior lives in a facility, there are often events and social opportunities available. But when a senior lives in their own home, and perhaps can no longer drive or mobility is an issue, they often become lonely and isolated. The E.L.E. Center offers a place for seniors to be mentally and physically engaged, socially interact with others, and find purpose through sharing their skills and talents with others.

We welcome seniors who would like to share a skill or a talent, to apply to teach a class at the E.L.E.Center.

The possibilities for the E.L.E. Center are endless but here is a list of some of the things you can expect to find on our calendar over the next few months.
